

# Investigation Into The Representation Of 4D Shapes

10/02/2022

# Week 2 Progress Report

- More data analysis
- Progress on Dissertation
- Not a huge amount of progress this week

# Questions

- Opinions of current results

# Plan Ahead

## Week 1 & Week 2

- Finish implementing test system
  - graphs between representations
  - fix rotor rotation
  - add time limit

## Week 3

- Begin developing data analysis tools, most likely with a jupyter notebook
- run some preliminary tests to decide if there is any data or visualisations I want to cut

## Week 4 & Week 5 & Week 6

- Run experiments
- Begin dissertation
- Begin presentation
- Further develop data analysis tools

## Week 7

- Evaluation of experiments

## Week 8 & Week 9 & Week 10

- Write up draft dissertation

# Am I on schedule

- Looks like it
